Sous Vide Bacon and Gruyère Egg Bites

Breakfast | Sous vide

Before you start

Equipment: six 4 oz/125 ml canning jars with two-part lids and sous vide cooker. Cook at 172°F/77.8°C for 1 hour.

Ingredients

Matching letters and colors = one prep bowl. Charcoal = keep separate.

Bowl A - Eggs, Gruyère, cream cheese, and salt

- [ ] 6 eggs [Bowl A]
- [ ] 1/2 cup Gruyère, grated [Bowl A]
- [ ] 1/4 cup cream cheese [Bowl A]
- [ ] 1/4 tsp salt [Bowl A]
- [ ] 3 slices cooked bacon, halved

1. Prepare and cook

1. Set your Anova Precision Cooker for 172ºF/77.8ºC

2. In a blender or food processor, combine eggs, cheeses (or other optional dairy like cream), and salt until smooth

3. Place your jars on a work surface and push a half-slice of bacon into the bottom of each one

4. Divide the egg & cheese mixture evenly among the jars

5. Attach two-part lids and close to fingertip tightness. This means using only your fingertips to screw on the ring; if they are too tight, the air pressure within will not be able to release and the jars will shatter on the bath

6. Once closed, submerge the jars in the water bath and set your timer for 1 hour

2. Finishing Steps

1. Remove from the bath and enjoy straight from the jar if desired! You can also slide a butter knife around the edge, pushing gently inwards as you do so to loosen the base. Invert jar onto heat-safe surface and either sear with a torch or place under broiler for a few minutes for color.

2. Enjoy!

Notes

Uses the complete six-jar recipe in the saved file. Several personal 12-/14-/18-egg variations at 170°F remain in the original document; their quantities are not blended into this version.
